

Eiji Hara obtained his Ph.D. from the Tokyo University of Science in 1993. He then moved to the University of California, Berkeley (Berkeley, USA) as a Postdoctoral Fellow, where he worked on cellular senescence with Dr. Judith Campisi. In 1995, he joined the Imperial Cancer Research Fund Laboratories (London, UK) as a Postdoctoral Fellow to study cell-cycle control under the supervision of Dr. Gordon Peters. In 1998, he became a Group Leader at the Cancer Research UK Paterson Institute for Cancer Research (Manchester, UK). He returned to Japan in 2003 to become a professor at the University of Tokushima, and subsequently moved to the Japanese Foundation for Cancer Research in 2008, before joining the University of Osaka in 2015.
